NOTE FOR: Mr. Duckett

Carl:

Attached are two documents which I acquired via reasonably legitimate if slightly unorthodox means. (I would never, of course, be party to running domestic operations, which we all know are against the law.) As you can see from them, our space squeeze is steadily tightening. I would be delighted to accommodate the Operations Center but, as explained in our earlier conversations on this subject, cannot do so unless and until I can somehow acquire title to a block of space of approximately similar size (circa 3,000 square feet) which can be easily configured to house the NIOs currently camping out in 6F19. The bind there will get worse when Dave Murphy arrives next month and will become intolerable as soon as I am successful in recruiting a China NIO. Thus, once again, I would be extremely grateful for any assistance you could render in helping solve this problem.
